Which version of Photoshop are you using? I don't have Solid Color as an option when I go to
Layers>New Adjustment Layer. I'm using CS2.

Thank you for a great tutorial!

Reply

P Mar 26, 2014

I am lost. How did you fill it with black??

Reply

Apr 24, 2014 | Hobbyist Photographer

After you've clicked on Layer>New>Layer a box comes up (*New Layer*). Go to the Mode:
and select *Screen* from the drop down bar. Tick the *Fill with Screen-neutral colour (black)*
checkbox. Click *Ok* to create the layer.
Hope that helped!

Used this for this: **princessbeephtgrphy.deviantart...**

Love the tutorial but I feel like it wasn't the right kind of picture for it on my part
I will definitely be doing this tutorial on other, better pictures

Reply

Mi Ps is is spanish what is "screen" in spanish?

Reply

Aug 10, 2012 Hobbyist Digital Artist

Amazing! Doesn't work so good on unsaturated pictures or icons. Learned the hard way

Reply

May 28, 2012 Hobbyist Digital Artist

Very Nice
